Dear Klaus:

The Filing Receipt covering the above-identified patent application has been received from the United States Patent and Trademark Office (PTO) and reflects the following information:

Serial No.: 09/705,562; Filing Date: November 2, 2000.

A copy of the Filing Receipt is enclosed for your review and file. The PTO has been advised of the noted errors and will make the necessary corrections. We will advise you promptly upon receipt of the first Office Action.

Although it is not mandatory under United States law, a product incorporating the invention should be marked with "Patent Pending," "Pat. Pend." or "Patent Applied For." You should not mark such products "Patented" until a patent issues from this application. We will advise you of the correct marking when the Letters Patent are mailed to you.

Now that your application is on file, you may disclose your invention throughout the world without loss of patent rights in the numerous countries that are contracting countries to the Paris Convention. Please contact me if you would like a list of the contracting countries. Under the Paris Convention, your right to file in the contracting countries is preserved for one year from the U.S. filing date.

February 7, 2001

Although Taiwan is not part of the Paris Convention, it is now possible to claim priority in Taiwan for any U.S. patent application filed after April 10, 1996 under a bilateral agreement between the U.S. and Taiwan. We will be in contact with you regarding foreign filing as that deadline date approaches.

Very truly yours,

A handwritten signature in black ink, appearing to read "Douglas M. Kubehl", written in a cursive style.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 36 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 600 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
